

# Wellstone Awaits!

This summer, Silver Gryphon Games is holding its 1st Annual Writing Contest! The focus of this year is our overwhelmingly popular setting of Wellstone City for both the Æther and the Savage Worlds game systems.

## Here's what we want:

We are looking for short role-playing works dealing with Wellstone City. The target page count is five pages. We are looking for detailed scenes, locations, and people in those five pages, not full adventures. The subject matter of the scene is up to you, but the affiliations and goals of the people involved should all be spelled out, as well as possible consequences of different outcomes of the actions of the PCs. Submissions are being taken from June 1st to August 31st of this year. Through September we will be judging the submissions, and October, all of the accepted submissions will be published.

## Here's what you get:

You get a shot at fortune and glory! The top three submissions will be paid. The top submission will be paid \$75 (US), 2nd place will be given \$50, and the third submission will be given \$25 for their efforts. All participants that follow the rules will be published, and will be given full credit for their work. Sound good? There are some other things we have to tell you.
